ENVIRONMENTALLY RESPONSIBLE BRAKE CLEANER AEROSOL

CODE: AM7-20

PAGE: 1 of 1

DATE: 01/21/2008

FUNCTION AND APPLICATION: Environmentally responsible brake cleaner quickly removes and flushes away surface contaminants such as brake fluid, oil, from all types of brake and C.V. joint assemblies. It cleans instantly and can be applied without disassembling the brake unit. It leaves no residue and helps stop disc brakes squeal and "chatter". A professional mechanic should determine if certain brake system parts should be replaced rather than cleaned. For instance, no brake cleaner can effectively clean brake linings that have been impregnated with oil. To help retard the release of asbestos dust and other airborne particulate matter, follow the directions for use carefully and in order.

OUTSTANDING PROPERTIES: Contains no ozone depleters, no volatile organic compounds (VOC's) and uses carbon dioxide as the propellant.

USE DIRECTIONS: 1) Protect rubber parts and boots from accidental overspray. 2) Lightly wet down surfaces to be cleaned by spraying in short bursts from a distance of 18 to 24 inches. **Do not spray on hot metal surfaces.** 3) After surfaces have been wetted, continue spraying at a distance of 12 to 18 inches to flush contaminants from surfaces. Collect any runoff for proper disposal. 4) Spray brake parts thoroughly, then allow to air dry or wipe with a soft clean cloth. 5) Extreme conditions may require a repeat application.

PRODUCT LIMITATIONS: THIS PRODUCT WILL ATTACK PAINTED SURFACES AND PLASTIC. IF SPRAYED ON, DO NOT RUB SURFACES, FLUSH WITH WATER IMMEDIATELY

PRECAUTIONS: Contains Perchloroethylene (CAS# 127-18-4) and carbon dioxide (124-38-9). Contents under pressure. Do not place can on hot surfaces or in direct sunlight which could cause can to burst violently and cause serious injury. Do not breathe asbestos, dust particles, or vapors. Use only in a well-ventilated area, open doors and windows to prevent vapor build up. NIOSH approved respirator recommended; may be required for professional users; consult MSDS for exposure limits. Mechanical ventilation may be necessary to prevent a hazardous concentration of vapors if more than one container is used in less than a 15-minute period. **INHALING CONCENTRATED VAPORS, INTENTIONALLY OR OTHERWISE, CAN CAUSE PERMANENT ORGAN DAMAGE OR CAN BE FATAL.** Avoid contact with eyes, skin or clothing. Remove contaminated clothing and wash before reuse. Remove contact lenses before use. Skin absorption through

prolonged or repeated contact can result in organ damage. Wear chemical goggles and solvent proof gloves and apron. Wash thoroughly after handling. This product is non-flammable. Do not use in confined spaces such as basements, engine compartments of boats and vans where vapors may collect. Adequate ventilation must be maintained under all circumstances.

WARNING: This product contains a chemical known to the State of California to cause cancer.

FIRST AID: For EYE contact: Flush thoroughly with water for 15 minutes lifting upper and lower eyelids occasionally and get prompt medical attention. For SKIN contact: Wash thoroughly with soap and water. If irritation persists, get prompt medical attention. If INHALED, remove to fresh air. If breathing becomes difficult, get prompt medical attention. **IF SWALLOWED DO NOT INDUCE VOMITING.** Call Poison Control Center, Physician, or Hospital Emergency Room immediately. Aspiration of vomitus into lungs can cause chemical pneumonitis, which can be fatal. Never give anything by mouth to an unconscious person.

STORAGE AND HANDLING: This product is nonflammable. Do not use in confined spaces such as basements, engine compartments of boats and vans where vapors may collect. Adequate ventilation must be maintained under all circumstances. Store in a cool, dry, well ventilated area. Do not puncture or incinerate container. Do not expose to heat, sparks, open flames or temperatures above 120 F. Exposure to high temperatures may cause bursting. Do not place on

radiator, stove or in direct sunlight. Keep from contact with electrical connections such as battery terminals.

DISPOSAL: Disposal of product runoff in water courses, sewers, or on the ground is prohibited. Proper disposal includes collecting and recycling. Always use and dispose of product, container, and residue in accordance with all local, state and federal laws and regulations. Emptied containers contain product residue, so follow all warnings even after container is emptied. **SAFEGUARD OUR ENVIRONMENT.**

CONTAINER DESCRIPTION: This product is available in 18 oz (1 lb. 2 oz) aerosol can.
